

Elmsett Craft Club.

Key Stage 2 designed and made memory boxes in our after-school craft club. They brought in a special picture or pictures from home and used a range of resources such as buttons, card, felt and stickers. They also had access to two Sizzix craft machines which meant they could cut out additional elements such as the felts cats and dogs. They all worked really hard and hopefully this will help to keep those treasured memories forever.

Deforestation

Owls class investigated the impact of deforestation on the rainforests around the world.

After lunch, we returned to find our classroom have been destroyed. We have explored the threats and their impact on this habitat (including endangered animals) as well as looked at preservation.

We created poster to raise awareness and answered our key question of 'Why should rainforests matter to all of us' in an explanation text.
