MATHS AT THE MOVIES

In Hartest C.E. Primary we had a great time exploring maths through the movies!

In Squirrels, we loved watching 'Minions'! We had a great time making Minion codes for each other and trying to solve them. We also played a game based on snakes and ladders called 'bananas and ladders'.

In Hedgehogs, we watched Madagascar. We looked at all the different animals and compared their characteristics. We were able to count the total number of legs and compare their sizes.
