

St Matthew's Church of England Primary School

During British Science Week, we were visited by Dr Mandy Hartley who spoke to us about being an author and forensic scientist. Lots of Science took place during the week including Y5 extracting DNA from strawberries and Y4 making icecream with milkshake and salt...

Year 5 had an amazing day being evacuated and experiencing life on the farm during World War 2.

Ipswich Town player Gwion Edwards, visited St Matthew's to present us with a signed fairtrade football.

We have decorated "Dreamer", with our hopes for the future, to join the Elmer Parade in support of St Elizabeth's Hospice

The whole school had an amazing Arts Week! We enjoyed Bhangra dancing, sculpture, drama, story-telling, back stage tours, a classical concert, stage make up sessions, visits to an art gallery, a pantomime and wrote a song!

The song features every single child:

- Ladybirds and Bumblebees playing percussion;
- Year 1 playing percussion and shouting;
- Year 2 playing recorders;
- Year 3 playing guitars and beatboxing;
- Year 4 giving reasons they love St Matt's and singing;
- Year 5 playing flutes and singing;
- Year 6 wrote every word of the song.

Listen to it on iTunes or Spotify.
