## <u>Here are a few highlights from this last term of the year from Tudor CE</u> <u>Primary School.</u>

Last week we enjoyed a wonderful week with an ISingPop project. This involved spending the first 3 days of the week learning 7 songs with actions and then on the Thursday recording our own CD of the songs and ending with 2 concerts in St Peter's Church in Sudbury town centre for parents and carers. It was a truly amazing week. The songs had themes covering emotional intelligence, resilience, faith and also the RE curriculum. The children loved every minute of learning both the songs and also the 'cool moves' that accompanied each song.

Even the parents joined in too!

We would like to thank the Essex trust for their support in this project and enabling this to happen here at Tudor. This is an experience we will all remember for a long time.

### The Peace Child.

The week before ISingPop we enjoyed putting on a performance at The Quay Theatre in Sudbury. Children from years 3, 4 and 5 had been working extremely hard learning lines, dances and songs and finally performed to parents, the Deputy Mayor and other invited guests. They were extremely proud of their production and rightly so! We all enjoyed it so much that we are already planning next year's production!

We would like to thank the Quay Theatre for their help in putting on this show! They even allowed 2 of our boys to work the sound system from the technical gallery!

### The Farmer's market.

We held our annual farmer's market on Thursday 21<sup>st</sup> June after school. All the children made products to sell from produce they had grown during the year.

Products ranged from Lavender bags, lavender

shortbread, herb bread, potato salad, Eton mess and salsa. It was a lovely afternoon!

#### The Royal Wedding.

It seems a while ago now but the children at Tudor enjoyed a DT project that centred on designing a hat for the Duchess of Cambridge to wear for the Royal Wedding between Prince Harry and Meghan Markle. They were great designs and the children rounded off the project with a letter to the Palace, including photos of their designs. This had to be a very formally written letter as you can imagine, which the children enjoyed enormously. They were completely delighted to receive a reply from the Duchess which is now proudly displayed in our entrance area! What out for some of our designs to crop up!

Done this success,	
These two provides interior The Dashess of Controls and 216 Mays. 2019. It was extensively bound of pair to early, and segme an extent with your you? Column to design a law velocity weakly be assume for the Head Capitaneo to worse with resolu- wording of The Dake and Designs of Dames.	
Consist new that all of the printerss of hair yoys sent to The Dashner work very sequencing, and Theore The Keys if Reference was designed with all of yoys perform designs. The Defaults was used interims generative in the the anishtenet de mean and then such of the infoldemy. They were very presented on anternative of an enternal flow.	
These your spars for your letter, and there, you, you to your pupils for sensing the Royal Highman theor. I know The Dachass of Canterings would have one woul you has suprement shanks and heat winder to you and he you? I shill form a your yelend.

# Ofsted.

We must not forget our celebrations after we welcomed a visit from Ofsted in May. We were delighted with our final judgement of a 'Good' school with an 'Outstanding' Early years.

Many thanks to Mrs Finch for our amazing celebration cake!
