

## Article for the MAT

### Tudor CE Primary School Summer 2021.

#### Allotment News!

Our vegetables grew!!

We have been very proudly harvesting our vegetables and salads at lunchtimes.

So far we have eaten radishes, carrots, lettuces, and potatoes. We have many courgettes and potatoes and butternut squash and broccoli and sprouts left growing.

This has been a wonderful time for us here. The children love going to the allotment and often say it is their favourite thing to do at school, 'it's not like real work!' or 'this is better than real work!'

#### Operation Tennis Courts!

Every child and every adult in the school has taken part in a sponsored tennis activity to help raise money for our new tennis courts.

The children all did an activity that was related to Tennis and Wimbledon.

KS2 children ran round the track 10 times as this represents the perimeter of the courts at Wimbledon.

Here is Mara above and Mina below our long distance winners and experts!

LKS2 children bounced a tennis ball 100 times with a tennis racket as this represents how many times a ball is bounced in an average match on centre court. So this was  $60 \times 100 = 6000$  times!

EYFS and KS1 children balanced a tennis ball on their tennis racket and walked up and down our track.

Parents very proudly came to watch their child take part and we are currently collecting in all the sponsor forms.

We also held a raffle which raised £700.

I also cycled 230KM which is equivalent to the distance between my house and centre court and raised over £300 for this.

### Tudor Strawberry Company!

Children in EYFS and KS1 created their own company and marketed, took orders for and produced and distributed strawberry products for a profitable price. They had a lesson from Mrs Crane our Business Manager here at Tudor on how to ensure they make a profit as well as give good value for money.

EYFS children made strawberry pots.

Melford class made delicious jelly.

Felbrigg class made sorbet and Hatfield class made Strawberry kebabs.

They marketed their ideas through posters and letters.

We raised over £300 for this alone. Very well done!
